As per discussion with Ed Messer, ESAT shall validate **all** of the data included in the two data packages from Test America first ASAP. Instruction will follow regarding the review of the URS data. This has top highest priority. Other data reviews are on hold until these have been completed.

Thanks!!!!!!!!!!

Fred and all,

ESAT has informed me that the data packages include semi-volatiles which during our meeting/discussion were not mentioned. Do you want ESAT to validate these data also? I will instruct ESAT to validate the parameters discussed during our meeting and then the semi-volatile compounds unless, I hear otherwise.

Thanks!!!!!!!!!!!!!!!!!!
